Good morning,
my husband and I own property that has recently been proposed
as an addition to the historic district. The property located at
204 Church Street has no contributing historical significance to the district
other than it's age.
Therefore, we are requesting the property be taken from the list of proposed
additions to the historic district.
Please advise, other than by this request, how best to proceed with our
request.

Joann P. Sutphin
